

Minseok Won (원민석)

+82 10-3253-8488 | mdave2003@snu.ac.kr | LinkedIn: www.linkedin.com/in/numin17 | GitHub: <https://github.com/Minseok-Won>

Education

- **Seoul National University** (Mar 2022 - Present)
B.S. in Industrial Engineering | Double Major in Artificial Intelligence
- **Seondeok High School** (Mar 2019 - Feb 2022)
Graduated

Experience

- **LDS Lab** (Jun 2026 - Present)
Undergraduate Research Intern (Summer)
- **Capital Defense Command, 22nd CBRN Battalion** (Mar 2024 - Sep 2025)
Sergeant (Discharged) | CRST (CBRN Terrorism Special Response Team)

Projects

- **Optimization Grand Challenge (OGC) 2026 - Team 'Cook'**
Utilized mathematical optimization to calculate optimal shipping routes and maritime logistics quantities.
- **Seoul Public Bicycle Effectiveness & Capacity Suggestion Research**
Conducted statistical analysis, including regression estimation, to evaluate the actual effectiveness of Seoul's public bicycles. Proposed optimal capacity to reduce tax expenditures related to bicycle relocation management.

Research Interests

- Dynamic Optimization, Linear/Non-linear Optimization
- Machine Learning, Deep Learning
- FinTech (Spot Investment)

Skills & Languages

- **Programming Languages:** Fico Xpress Mosel, C/C++, Java, Python
- **Languages:** Korean (Native), English (TOEFL: 87)

Honors & Awards

- **Merit Scholarship (Half-Tuition)** - Seoul National University (Spring 2023)

Relevant Coursework

Completed	Expected
• Introduction to Optimization Models • Engineering Mathematics 1 & 2 • Basic Math and Programming for Machine Learning • Management Science 1 & 2 • Algorithms • Human Factors Engineering / Lab	• Fundamentals of Deep Learning • Production Management • Data Structures • Data Management and Analysis • Artificial Intelligence • Simulation • Computer Vision • Service Engineering
